

Mirror Clings

How to get involved

Please consider how many mirror clings you would like to take to place on the corners of mirrors in both men's and women's public restrooms or other appropriate spaces. Ideas for where to hang mirror clings include:

- Libraries
- Gyms
- Grocery stores
- Restaurants and bars
- Coffee shops
- Clothing stores
- Bookstores
- Medical offices
- Music venues
- Churches
- Community centers
- Gas Stations

How to Place the CHOICES Mirror Cling

Place cling in the bottom corner of the mirror of a public restroom. It should be easily visible without blocking or obstructing the mirror. The square shape of the mirror cling is ideal for fitting into corners and edges. One mirror cling per mirror should be sufficient. Please use your judgment when placing in a restroom with multiple mirrors, as we do not intend to clutter up these public spaces but be visible enough to be helpful to those who need to see the message of the mirror cling.

LSS CHOICES is the only domestic violence shelter and hotline in Franklin County. In addition to safe shelter, we offer counseling services, case management and hope for a life free from violence for those impacted by domestic violence and their children.

About the CHOICES Mirror Cling Initiative

LSS CHOICES has created a "*Love shouldn't hurt*" mirror cling to be placed in restrooms or other public spaces throughout our county to help raise awareness of this issue as well as provide quick and safe assistance for those who are current victims of domestic violence.

Sample language

Before placing the mirror cling in a public restroom, it is strongly recommended that you first check with the business owner/manager-on-duty before doing so. Here is some sample language to use when asking:

"I am helping CHOICES, the only domestic violence shelter and hotline in Franklin County, to place these discreet mirror clings on the corners of mirrors in public restrooms. They are not permanent and will not harm or block the mirror, and they may give someone in danger a way to get immediate help. Would you consider allowing me to place this in your restroom to possibly save lives here in our community?"

Need help?

If you are a victim of domestic violence, please call the LSS CHOICES hotline
